

SENTRY

GUARD CATALYSTS & SUPPORT

**Protect your
catalyst.**

**Protect your
bottom line.**

Introducing the most
complete guard catalyst and
support portfolio available

Now there's Sentry™ Guard Catalysts and Support – an entire family of products from Criterion Catalysts & Technologies dedicated to protecting your hydroprocessing operations from the contaminants often found in disadvantaged feedstocks. Catalyst contamination can negatively affect your return on investment – that's why Criterion has committed R&D resources to bring you guard and support technologies that address the contaminant problems you face every day.

The Sentry platform offers solutions for the prevention, diagnosis and resolution of contamination issues – protecting both your catalyst investment and your bottom line. Contact us to learn more.
